■ 新規性の図解（先行研究との違いと本研究のブレークスルー）

4. 新規性による優位性

主要な貢献・ブレークスルー

… This study proposes a dual-robust unscented Kalman filter, termed H∞-GMMC-UKF, combining

■ 要約

… This study proposes a dual-robust unscented Kalman filter, termed H∞-GMMC-UKF, combining an H∞-motivated priorcovariance modification with a generalized maximum mixture correntropy measurement update. The former improves tolerance …
